

February 25, 2014

Dear Mr. Speaker:

The undersigned 636 business organizations are encouraged by the House Republican Conference's review of "Standards for Immigration Reform." We support Congress and the Administration moving forward on immigration reform using these Standards as the guideposts for action this year.

We are united in the belief that we can and must do better for our economy and country by modernizing our immigration system. Done properly, reform will deter illegal immigration, protect and complement our U.S. workforce, better respond to changing economic and demographic needs, and generate greater productivity and economic activity, while respecting family unity.

Failure to act is not an option. We cannot afford to be content and watch a dysfunctional immigration system work against our overall national interest. In short, immigration reform is an essential element of a jobs agenda and economic growth. It will add talent, innovation, investment, products, businesses, jobs, and dynamism to our economy.

We urge legislative action to seize this opportunity to fix our dysfunctional immigration system by enacting meaningful immigration reforms this year.

Sincerely,
