SEMICONDUCTORS ARE THE BRAINS OF MODERN ELECTRONICS, enabling advances in medical devices and health care, communications, computing, defense, transportation, clean energy, and technologies of the future such as artificial intelligence, quantum computing, and advanced wireless networks.

THE U.S. SEMICONDUCTOR INDUSTRY IS THE WORLDWIDE INDUSTRY LEADER with about half of global market share and sales of $275 billion in 2022.

THE SEMICONDUCTOR INDUSTRY DIRECTLY EMPLOYS MORE THAN 300,000 PEOPLE IN THE U.S. and supports nearly 1.8 million additional U.S. jobs.

NEARLY HALF OF U.S. SEMICONDUCTOR MANUFACTURERS’ PRODUCTION IS DONE IN THE UNITED STATES, and 18 states are home to major semiconductor manufacturing facilities.

SEMICONDUCTORS ARE A TOP-5 U.S. EXPORT, and more than 80% of U.S. semiconductor companies’ sales are to overseas customers. The United States exported $61.1 billion in semiconductors in 2022 and maintains a consistent trade surplus in semiconductors, including with major trading partners such as China.

THE U.S. SEMICONDUCTOR INDUSTRY ANNUALLY INVESTS ABOUT ONE-FIFTH OF ITS REVENUE INTO R&D, which is the second-highest share of any major U.S. industry, behind only the pharmaceutical industry.

RAPID INNOVATION HAS ENABLED THE SEMICONDUCTOR INDUSTRY TO PRODUCE EXPONENTIALLY MORE ADVANCED PRODUCTS AT A LOWER COST, a principle known as Moore’s Law. A single smartphone today has far more computing power than the computers used by NASA to land a person on the moon in 1969.

THE U.S. SEMICONDUCTOR INDUSTRY IS AMERICA’S #1 CONTRIBUTOR TO LABOR PRODUCTIVITY GROWTH. Semiconductor technology has made virtually all sectors of the U.S. economy — from farming to manufacturing — more effective and efficient.

About SIA: For over 40 years, SIA has represented the semiconductor industry, one of America’s top export sectors and a key driver of our country’s economic strength, national security, and global technology leadership. SIA represents 99 percent of the U.S. semiconductor industry by revenue, and nearly two-thirds of non-U.S. firms. Learn more at www.semiconductors.org.
